

It's about integrity.

We believe that chandelier bidding* can be deceitful and bad for the market. That's why we only recognize real bids from real bidders, and why we always disclose the exact reserve amounts days before each auction. Learn more today at HA.com/about.

*The legally permissible (in New York and elsewhere) practice of opening a lot below a hidden reserve and running the price up to that reserve by pretending to accept bids from imaginary bidders.

It's about respect.

We believe in full disclosure. When there's a reserve, we post the precise amount online several days before the auction. Why should you have to guess? Learn more today at HA.com/about.
